LASORSA & ASSOCIATES

TRAINING PROGRAMS

Industry Leading Training from Industry Leading Practitioners

Our comprehensive program is designed to cover the skills and procedures required to provide effective personal protection and exceed the needs of every trainee: the fundamentals of executive protection, evasive driving, medical response and full-spectrum conflict resolution.

Our courses are developed and instituted by a Former Secret Service Special Agent, Law Enforcement, Military & Internationally Respected Private Sector Professionals. Each student is evaluated and required to demonstrate a capability on each exercise which exceeds the minimum requirements we have established, and an electronic (PDF) certificate of completion is awarded to attendees of each program.

Exceeding the standard: *ASIS Executive Protection Standard*

LaSorsa & Associates has released the First Edition of our Executive Protection Training Manual — a comprehensive program of instruction designed to exceed the ASIS Executive Protection Standard. Built for our alumni, our current students, and the next generation of protective professionals, the manual codifies the doctrine, standards, and evaluated performance criteria that define the LaSorsa & Associates training pipeline.

Private & Group Training

Our courses can be specially scheduled nationwide for your group. Initial consultations are always discreet, personal and free. **Private courses have no minimum number of students. The minimum fee is 10x the open enrollment rate, plus 1x the rate for each student over 10.**

See our training schedule, course costs, and locations here: https://training.lasorsa.com/

What sets us *apart?*

Realistic, Relevant & Valuable Training for Today's World

- Highly experienced trainers & staff.
- A focus on reality, efficiency & survivability.
- Fundamental, lean content maximizes value.
- A unique training methodology leveraging each trainee as an individual.
- Task, threat and environment-based system of training.

An electronic (PDF) certificate of completion is awarded to attendees of each program which may supplement your résumé for desirability.

Accredited *training*

Accredited Executive Protection Training – 3rd Party NC Department of Justice Private Protective Services Board Certified Training Course for Continuing Education PPSB-11-634 and the CPP license.

LASORSA & ASSOCIATES

EVASIVE DRIVING

Defensive / Evasive Driving Course

Length: 2 days | **Cost:** $3,500 | **Days 8–9** of the 9 Day Executive Protection Training Program

This course will be tailored to meet your training needs – whether you are a protection specialist, executive chauffeur, security contractor, executive or public figure and even their family members – our course will increase your survivability.

Designed for executive protection agents, our defensive & evasive driving course is also great chauffeur, security driver and protective driving training for anyone wanting to gain knowledge and experience in evasive driving concepts, accident avoidance and skid control. An emphasis is placed on developing intuitive driving skills that will allow the student to recognize and respond to the vehicle's feedback in order to survive life threatening situations ranging from deliberate attacks or ambushes to motor vehicle accidents.

Defensive / Evasive Driving Course

- Vehicle Mechanics & the Science of Driving
- Vehicle Types & Considerations
- Vehicle Checks, Equipment & Emergency Preparedness
- Attack Recognition & Ambush Avoidance
- Sedan & SUV Evasive Maneuvers & Concepts
- Accident Avoidance, Emergency Braking & Swerving-to-avoid Obstacles
- High-Speed Vehicle Maneuvers, Braking Techniques & Skid Control
- 2 Point Escape Turn and Reversing Techniques
- Evaluated Performance Standards & Minimum Passing Requirements

Training to a standard

Each student must demonstrate a skill on each exercise which exceeds the minimum requirements established for security driving techniques. The U.S. Secret Service and Department of State Worldwide Protective Service (WPS) standards were utilized as benchmarks in the development of our standards, and the certificate you receive will indicate that you have met and exceeded them, a testament to your capabilities as a security driving professional.

Think of it *this way*

You may have to use your weapon, but you will drive the vehicle.

Most executive protection specialists and those newcomers to the business tend to focus their training dollars on firearms training. While training for that small chance is appropriate, it is vitally important to the safety of your client and your effectiveness as a protection professional to be well trained in evasive driving, so invest where it matters most.

LASORSA & ASSOCIATES

SECURITY CONSULTANT

Security Consultant Training Course

Length: 2 days | **Cost:** $1,500

Introduction to Physical Security Consulting. Developed and instituted by a Former Secret Service Special Agent, Law Enforcement, Military & Internationally Respected Private Sector Professionals, Board Certified in Security Management & Consulting.

This course will provide a fundamental overview of the concepts and procedures used in physical security consulting and is suitable for anyone wishing to jump-start a consultancy or to further develop their skills in security consulting. This introductory program will show you how to successfully launch a new security consultant practice by discussing how to develop and market yourself as a security consultant. This course also includes a module on the ASIS CPP designation, discussing what is required to acquire it and its value to you as a consultant.

2 Day Security Consultant Training Course

- Overview & Terminology
- Physical Security Fundamentals
- Physical Barriers, Access Control, CCTV, Lighting, Intrusion Detection Systems & Security Systems Integration
- Crime Prevention Through Environmental Design (CPTED)
- Safe Room Design Characteristics and Recommendations
- Understanding & Defining Risk Mitigation: Best Practices, Protocols and Standards
- The Methodology of Conducting Security Risk Assessments & Surveys
- Writing Reports, Report Content & Submission
- Establishing a Consultancy

NC PPSB *certified*

NC Department of Justice Private Protective Services Board Certified Training Course. 12 Hours of Continuing Education Credit. NC-PPSB-15-045.

This course can be specially scheduled nationwide for your group. Initial consultations are always discreet, personal and free.

LASORSA & ASSOCIATES

TSCM TRAINING

Technical Surveillance Counter-Measures (TSCM) Course

Length: 2 days | **Cost:** $1,500

Whether you are protection personnel, on a traveling executive protection team or a private investigator this course will provide the basic knowledge and fundamentals of Technical Surveillance Countermeasures to enable the discovery of commercial/consumer-level eavesdropping/video devices – the 90% solution.

TSCM Training Course

- TSCM Overview, Services & Terminology
- Threat & Target Analysis
- Technical Surveillance Threats and Devices
- Pre-Inspection Surveys
- Basic Electronics
- 'TSCM with your EDC'
- Gear & Equipment Selection
- Physical & Technical Search Tools, Techniques & Procedures
- Technical & Physical Search Practical Application
- Report Writing Considerations & Examples
- TSCM Business Concepts

Note

We do not provide training specific to REI or any other brand's equipment.

Training to a standard

Each student in our training courses will be evaluated and required to demonstrate a capability on each exercise which exceeds the minimum requirements we have established for a fundamental knowledge of technical surveillance counter-measures. The certificate you will receive will indicate that you have met these standards and will serve as a testament to your capabilities as a counter-surveillance specialist.

NC PPSB *certified*

NC Department of Justice Private Protective Services Board Certified Training Course. 12 Hours of Continuing Education Credit. NC-PPSB-19-004.

This course can be specially scheduled nationwide for your group. Initial consultations are always discreet, personal and free.

LASORSA & ASSOCIATES

RESIDENTIAL SECURITY

Residential Security Training (RST) Course

Length: 3 days | **Cost:** $2,500

'Peerlessly Realistic, Relevant & Valuable' RST Training Course. This residential security team training has been developed to teach best practices and give the students the tools and knowledge to set up world-class residential protection. The course combines practical exercises and classroom learning and is taught by long-term EP industry leaders.

Our Residential Security Team (RST) Training Course is designed to equip you with the specialized skills and knowledge necessary to safeguard residences of high-net-worth individuals and high-profile clients. This intensive program focuses on developing the competencies required to effectively secure private homes and estates, ensuring the safety and security of occupants at all times.

RST Training Course

- Best Practices for Residential Security Team / Estate Protection (resources provided)
- Residential Risk, Threat, Vulnerability Assessments (RTVA) and Residential Security Assessments (assessment tool provided)
- Residential Security Plan Development (templates provided and practical application on an actual estate)
- RST SOP, Post Orders, Scheduling, Technology Integration, Reports, etc. (resources and templates provided)
- Residential Security Systems: Access Control, CCTV, Intrusion Detection, & General Security Concepts
- Visitor / Vendor / Guest / Delivery Protocols (forms and templates provided)
- Crisis Management & Emergency Response
- Live Practical Application with an actual estate and principal family (role-players)
- Evaluated Performance Standards & Minimum Passing Requirements

Practical exercises & real-world scenarios

Our RST Training Course includes extensive practical exercises that simulate real-world residential security challenges. Participants will engage in live drills, scenario-based training, and comprehensive assessments to reinforce learning and ensure readiness for real-life applications.

Who should *attend*

- Security professionals seeking to specialize in residential protection
- Executive protection teams expanding their services to include residential security
- Individuals responsible for the security of private estates or high-net-worth clients
- Law enforcement and military personnel transitioning to private sector security roles

LASORSA & ASSOCIATES

PROTECTIVE FIREARMS

Protective Firearms Training Course

This Protective Firearms Training course teaches realistic, functional & effective weapons handling and threat engagement for executive security professionals. It was developed and instituted by a Former Secret Service Special Agent & Former Military Personnel.

1 Day Protective Firearms Training Course

- Proper gear selection & placement, ammo & ballistics
- Proper stance, grip & draw from holster
- Sight alignment, trigger control & recoil management
- Reloads & immediate / remedial action
- Concealed-carry considerations and techniques
- Shooting on the move & atypical shooting positions
- Multiple target engagement & shot cycles
- Shooting on the move & muzzle control
- Attack-on-Principal & principal extraction exercises
- Solo-Practitioner Attack Response/Counter-Attack (SPARC) Drills
- Detail Attack Response & Evacuation (DARE) Drills
- Evaluated Performance Standards & Minimum Passing Requirements

What do I receive at the end of the course?

An electronic (PDF) certificate of completion is awarded to attendees of each program which may supplement your résumé for desirability.

NRA *Basics of Pistol Shooting*

We offer NRA Basics of Pistol Shooting (Blended) Certification. Contact us for more information.

This course can be specially scheduled nationwide for your group. Initial consultations are always discreet, personal and free.

LASORSA & ASSOCIATES

PRIVATE INVESTIGATOR

Private Investigator Training Course

Length: 2 days | **Cost:** $1,500

The Most Practical, Relevant and Valuable Private Investigator Training Program available, developed and instituted by a Former Secret Service Special Agent, Law Enforcement & Former Military Investigations Personnel.

Private Investigator Training Course

- Private Investigations Overview, Terminology and Services
- Information gathering: social media, how to utilize resources, etc.
- Information vs. Intelligence
- Surveillance Concepts and Methodology – Moving, Stationary, Static, Technical
- How to Properly Document and Log an Investigation
- Interviews – Witnesses, Victims, etc.
- Background Investigations
- Corporate Investigations
- Pre-Employment Checks and Threat Analysis
- Domestic Cases – Divorce, Child Custody, Infidelity, etc.
- Civil Cases – Workers Compensation, Personal Injury, etc.
- Courtroom Testimony Procedures
- Business Operation – Obtaining Clientele, Operating Your Own Agency, Contracts, Fee Collection, Case Management, etc.
- Licensing: information sources and releases, GPS use, etc.
- Ethics Discussion and Legal Issues
- Guest speakers – FBI, USSS, NCIS, Experienced Private Sector Investigators, etc.

Starting your career as a private investigator

When you graduate, you'll have the investigative skills to meet the prescribed standards for PIs, and you will learn, step-by-step, the proven and precise methods of securing a position in a detective agency. If you want to start your own agency, even a home-based business, we will teach you how to select a name, price your services, advertise for clients, understand legal aspects (business license, state license, bonding and insurance) and much more.

NC PPSB *certified*

NC Department of Justice Private Protective Services Board Certified Training Course. 12 Hours of Continuing Education Credit. NC-PPSB-19-005.

This course can be specially scheduled nationwide for your group. Initial consultations are always discreet, personal and free.

LASORSA & ASSOCIATES

IMMEDIATE ACTION DRIVING

Immediate Action Driving Skills Course

Cost: Custom course, priced individually

LaSorsa & Associates offers a specialized Immediate Action Driving Skills Course (IADSC) designed specifically for security professionals who are looking to overcome high-risk, worst-case scenarios. This intensive course empowers drivers to execute tactical maneuvers like Precision Immobilization Technique (PIT) and ramming, preparing them for emergency situations where physical contact between vehicles is inevitable.

Course objectives

- **Comprehensive Knowledge:** Understand human and physical factors affecting driver and vehicle performance in extreme conditions.
- **Control Under Pressure:** Develop the ability to overcome stress and adrenaline, maintaining vehicle control during critical situations.
- **Decision-Making Skills:** Assess worst-case scenarios, decide on the best response, and execute the required actions to ensure the safety of driver and passengers.
- **Overcoming The Worst-Case Scenarios:** Explore security-related incidents, such as ambushes or attacks, and non-security events like crashes. Learn critical techniques to manage reaction time, distance, and risk when contact is unavoidable.

Practical exercises

- **Vehicle Ambush Survival Skills (VASS/Counter-Carjacking) Drills:** Three dynamic exercises teaching tactics to survive carjackings and ambushes, with techniques for vehicle placement and situational awareness.
- **Precision Immobilization Technique (PIT):** Master the PIT maneuver, applied to safely stop a threatening vehicle when escape is not an option.
- **Threat Countermeasures:** Implement techniques to counter an attempt to force your vehicle off the road or evade PIT maneuvers.
- **The Last Resort – Ramming:** Learn the methods to push through obstacles blocking your path, focusing on vehicle integrity and maintaining operational control.

Trackside *discussions*

- **Myths & Misconceptions:** Dispel common myths about handling worst-case scenarios and understand what's realistically possible.
- **Strengths and Weaknesses:** Maintain vehicle integrity, minimizing damage to tires, brakes, and engine systems.
- **Driving in Reverse:** Master techniques to overcome the challenges of reversing under pressure.
- **Force Continuum:** Learn when force is justified, referencing legal standards.

Evasive Driving Experience

Length: 1 day | **Cost:** Custom course, priced individually

Whether you are a protection specialist, executive chauffeur, security contractor, executive or public figure and even their family members, this program will meet your needs of an evasive driving experience.

Many executives, security professionals and private citizens have an interest in performance driving, but do not have many options for a short driving experience which offers realistic content delivered to meet their needs. Our Evasive Driving Experience is offered in order to provide just that. Suitable for executive and corporate events, group training and even for protective agents as a refresher, our program will satisfy anyone wanting to gain knowledge and experience in evasive driving, accident avoidance, emergency braking and skid control.

1 Day Evasive Driving Experience

- High-Speed Vehicle Maneuvers, Braking & Skid Control Exercises
- Accident Avoidance & Swerving-to-avoid Exercises: Roadblocks
- Emergency Escape Turns: Bootleg Turn (Mayday) & J-Turn (Switchblade)

For corporate events and groups

Perfect for corporate events and for introductory training, the evasive driving experience can be custom delivered to suit your organization's needs. The Evasive Driving Experience can be specially scheduled nationwide.

Schedule *for your group*

This course can be specially scheduled nationwide for your group. Initial consultations are always discreet, personal and free.

Priced individually for your group or organization. Contact us for scheduling and a quote: info@lasorsa.com or 771-247-7244.

LASORSA & ASSOCIATES

SURVEILLANCE DETECTION

Surveillance Detection Training

Length: 2 days | **Cost:** $1,500

The Surveillance Detection Training Course is designed to equip executive protection professionals with advanced skills to detect surveillance activities, in order to mitigate potential threats before they materialize. In today's unpredictable world, the ability to recognize and counter surveillance can be a life-saving skill, and even useful against unwanted privacy invasions and paparazzi. This 2-day intensive course will provide participants with the practical tools needed to identify surveillance and implement counter-surveillance strategies.

Surveillance Detection Training Topics

- Types and Purposes of Surveillance
- Surveillance Principles
- Threat Awareness and Adversary Planning Cycles
- Surveillance Detection and Counter Surveillance
- Surveillance Detection Routes (SDRs) and Immediate Action Plans

Learning objectives

- Detect and mitigate surveillance efforts in real-time.
- Identify and assess potential threats using behavioral indicators.
- Conduct Travel Pattern Analysis to spot surveillance vulnerabilities.
- Execute Surveillance Detection Routes (SDRs) effectively.
- Develop and execute Immediate Action Plans if surveillance is detected and confirmed.

Who should *attend*

This course is ideal for executive protection professionals, international travelers, security professionals, and anyone looking to enhance their personal security and situational awareness.

This course can be specially scheduled nationwide for your group. Initial consultations are always discreet, personal and free.

Church Security Training

Cost: Custom course, priced individually

Church Security & Protecting Religious Figures Training Courses and Instructor Development. This course will provide a fundamental overview of the concepts and procedures used in effective church security and protecting faith-based organizations. This program will enable successful security team selection and SOP development for church security teams and those who protect religious figures, such as pastor security teams.

Isaiah 6:8 "Then I heard the voice of the Lord saying, 'Whom shall I send? And who will go for us?' And I said, 'Here am I. Send me!'"

Church Security Training Course

- Event Security Fundamentals
- Risk Assessments & Threat Prevention
- Understanding & Defining Risk Mitigation: Best Practices, Protocols and Standards
- Security Team Selection, Training & SOP Development
- Active Shooter Scenario Training & Preventive Concepts
- Crime Prevention Through Environmental Design (CPTED)

What do I receive at the end of the course?

An electronic (PDF) certificate of completion is awarded to attendees of each program which may supplement your résumé for desirability.

Nehemiah 4:9 "But we prayed to our God and posted a guard day and night to meet this threat."

Schedule *for your group*

This course can be specially scheduled nationwide for your group. Initial consultations are always discreet, personal and free.

Priced individually for your group or organization. Contact us for scheduling and a quote: info@lasorsa.com or 771-247-7244.

LASORSA & ASSOCIATES

WORKPLACE VIOLENCE

Workplace Violence Prevention & Response

Cost: Custom course, priced individually

Workplace Violence Prevention Training will provide awareness, insights, techniques and concrete strategies to create a safer and more secure working environment. Our Workplace Violence Prevention Training is provided to any company or group, incorporating the specific needs of the client. Continuous training and routine assessment of vulnerabilities should be part of any responsible administrative program. Some issues routinely overlooked can leave a workplace vulnerable to theft, damage and major lawsuits. Our team of Board Certified security professionals at LaSorsa & Associates will conduct a complete assessment of your organization's situation and needs.

Who needs Workplace Violence Training & why?

Under the General Duty Clause of the Occupational Safety and Health Act (OSHA), employers are required to provide employees with a place of employment that is "free from recognizable hazards that are causing or likely to cause death or serious harm to employees." Therefore employers have a legal obligation to provide a workplace free of recognized activities and events which are known to cause or are likely to cause death or serious physical harm if there is a feasible method to abate the hazard.

Workplace Violence Training – a proactive approach including

- Successful Interventions
- Workplace Violence Statistics in the U.S.
- The Cost of Workplace Violence
- Definitions & Types of Incidents
- Identifying Warning Signs & Red Flags
- Behavioral Analysis & Pre-Attack Indicators
- Successful Intervention Techniques
- De-escalating Potentially Violent Situations
- Barriers to Intervention
- Reporting Procedures & Policy Implementation
- Safe Termination Procedures
- OSHA & Federal Laws
- Building Safety Considerations
- Active Shooter Response & Scenario Discussions

For your *organization*

LaSorsa & Associates provides customized, scalable and professional Workplace Violence Awareness & Prevention Training to areas all throughout the United States. Our staff of dedicated professionals will be happy to answer any questions you may have about Workplace Violence Prevention Training and schedule an assessment, consultation, and/or seminar for your group.

Contact us for scheduling and a quote: info@lasorsa.com or 771-247-7244.

LASORSA & ASSOCIATES

RED TEAM TESTING

Red Team Testing, Training & Quality Assurance

Cost: Custom course, priced individually

Identifying weaknesses in protective security layers and exploiting human nature, our team will train, test and validate your operational susceptibility to deceit, persuasion and infiltration through red team operations and social engineering exploitation.

Review from industry experts in protective services

By using highly experienced industry experts in protective services, our team has the insight to leverage social engineering or physically subverting your team's ability to maintain posture and security of information.

- Are all of your security agents from RST (Residential/Static) to EP (Mobile) truly validated?
- How strict are your agents about confidentiality?
- Custom delivered training relevant to the agent's role
- Nothing can be more damaging than insider threats of a high profile team agent.

Quality assurance through testing, training, validation & reporting

We can provide initial or post training, as well as validate that training or validate current operations with a detailed report with technical, detailed findings of the testing. The report details identified weaknesses or vulnerabilities and will outline recommendations and countermeasures to mitigate those risks and exposures.

Schedule *for your group*
