Realistic, Relevant & Valuable

Whether you are an individual or group of protection personnel, private individuals or a group of security company or department employees, this course will provide the group with the working fundamentals of Executive Protection, Protective Medicine, and Security Driving.

Invest in training that matters for your career, come learn from the best – the only training course instituted by a former Secret Service Special Agent on presidential protection at the White House - we will teach you everything you need to know, and nothing that you don't.

Our 7 Day Comprehensive Executive Protection Training Program is designed to cover the skills and procedures required to provide effective personal protection and meet the needs of a full range of student interest, from entry-level to seasoned practitioners—the fundamentals of executive protection, emergency medical response and evacuation & security driving-focusing on reality, efficiency & survivability with realistic scenarios for today's world.

EXECUTIVE PROTECTION TRAINING - BODYGUARD TRAINING

TRAINING TO A STANDARD

Each student in our 7 Day Comprehensive Executive Protection Training Program will be evaluated and required to demonstrate a capability on each exercise which exceeds the minimum requirements we have established for fundamental knowledge of executive protection, emergency medical response in protective operations and security driving.

U.S. Secret Service and Department of State Worldwide Personal Protective Service standards are utilized as benchmarks; however we have developed the most relevant set of standards of any training organization in the country for personal protection specialists operating in the continental US in today's world.

The certificates you will receive will indicate that you have met these standards and will serve as a testament to your capabilities as a personal protection specialist.

DEFENSIVE & EVASIVE DRIVING COURSE

Physical Security Consulting Training Course

"LEARN FROM THE BEST"

This course will provide a fundamental overview of the concepts and procedures used in physical security consulting and is suitable for anyone wishing to jump-start a consultancy or to further develop their skills in security consulting. This introductory program will show you how to successfully launch a new security consultant practice by discussing how to develop and market yourself as a security consultant. This course also includes a module on the ASIS CPP designation, discussing what is required to acquire it and its value to you as a consultant.

2 Day Security Consultant Training Program Outline:

Overview & Terminology

Common terminology used in security consulting and the basis of providing consulting services.

Physical Security Fundamentals

Learn the fundamentals on the protection of assets of an enterprise, agency, or institution – Increasing Deterrents, Decreasing Attractants, Site Hardening & Response Initiation.

Access Control, CCTV, Intrusion Detection Systems & Security Systems Integration

Learn the fundamentals of electronic access control, video surveillance, and intrusion detection. Discuss convergence and the development of a PPS (Physical Protection System)

Crime Prevention Through Environmental Design (CPTED)

What is CPTED? Learn how and why to apply it focusing on how to implement the concepts while discussing, guidelines and showing both good and bad examples.

Safe Room Design Characteristics and Recommendations

'Philosophy of Use' for purpose-built design concepts suitable to your client's needs.

Understanding & Defining Risk Mitigation: Best Practices, Protocols and Standards

Learn how and why the risk management context of the organization describes the scope as well as risk control parameters, methods, and plans currently in place for the risk management activities.

The Methodology of Conducting Security Risk Assessments & Surveys

Learn the 7 Step Process while discussing details and lessons learned. From start to finish, the student will be enabled to perform a physical security risk assessment.

Writing Reports, Report Content & Submission

The why and how of report writing: content, guidelines and recommendations with examples and templates.

Establishing a Consultancy

Learn operational business concepts, proposals & pricing of services, marketing strategies and discuss the "Do's and Don'ts" of start-ups. Discuss the process in acquiring the CPP and the importance of certification in security consulting.
