A four day course would be great - only to do more "hands" on activities. However 3 days was very sufficient.

Overall, both my partner and I were very pleased with the course. The instructors were all very patient and knowledgeable. They were very professional, yet still made themselves approachable and comfortable to ask questions. We were also very surprised how much time we actually got behind the wheel. The class size was just right. There was adequate time for everyone and we never felt rushed.

During my 7 days EP program I met a lot of good professionals and just good people. Special Thanks to Joe, Art, Chris again! Thanks to your dedication and good training program. I have learned a lot. Your good professional level show in your day to day life. Was also nice to meet good guys in our field and make new friends. We had great time learning and improving our skills. Last 3 days of Evasive Driving showed to me that it is one of the most important skills for every EP Professionals need on a daily basis. Practice, practice, practice ... makes us better. Knowing your vehicle and dynamics makes you feel more secure... "Knowing yourself is the beginning of all wisdom" (Aristotle). Stay safe.

6. OVERALL EVALUATION - GENERAL COMMENTS/RECOMMENDATIONS:					
This is the 3rd EP training course I've taken and by far the BEST! I went through Executive Protection Institute and Northern Virginia Training Academy (Miller Consulting Group). EPI had several instructors, Miller had 2. Very difficult for one person to command the attention of an entire class for 3 straight days. Joe did a fantastic job utilizing technology for the course, and showing us how to use technology in the field. Great job Joe!
